General Information (3 doses)

Chilled £ 700 (stud fee) **Frozen £ 700**

King Arthur was Champion of the 2000 Trakehner stallion grading and achieved a stallion performance testing score of 130.36. In 2003, King Arthur was also honored as the Champion of the Danish Warmblood Licensing. He was the winner of a very strong class of 6 year olds at the Bundeschampionate Qualifier in Wedel, with an impressive score of 9.0.

Petra Wilm, president of the German Trakehner society, purchased King Arthur at auction for 150,000 euro. King Arthur was in the ribbons at Prix St. Georges and Intermediare I. At the "Oldenburg Pferdetage", he was placed 3rd in the Intermediare I. There is no doubt that King Arthur's tremendous willingness to perform as well as his overall attitude and aplomb will put him and his offspring into the limelight again and again.

King Arthur is by Buddenbrock, who boasts a long list of approved sons with Champion Stallions among them. His dam line traces back to the famous K-family originally bred by the Count Dohna-Schlobitten.

King Arthur's progeny are doing extremely well. 3 of his sons were approved in 2005, with Kilimandscharo becoming Premium Stallion at the Oldenburg grading. His daughters have excelled in mare performance tests, and several have been awarded Premium and State Premium titles.

His offspring in competition have also been a credit to him by winning and being placed in many classes. His foals are demonstrating their quality with first placings at the foal championship held at Tasdorf.
