General Information (per dose)

Chilled £ 700 (stud fee) **Frozen £ n/a**

Rosentanz was top premium stallion at the 2003 stallion approval in Verden and was the highest selling youngster at the auction. He is an extremely extravagant, highly modern sport horse with outstanding movement as well as a talent for jumping.

At the stallion approval Rosentanz excelled in every single category, not scoring less than 7.25. He received 8.5 for trot, 8.38 for canter and walk, 9.25 for rideability and 7.25 for show jumping potential. He received a 9.13 for temperament and a 10 for his character. Out of 25 participating horses, his scores for movement were the best for walk and trot and second best for canter.

Rosentanz has won a series of tests for young riding horses and qualified for the Bundeschampionat. This past season Rosentanz has won several tests for young riding and dressage horses. At the Vorwerk Stallion show in February 2004, Rosentanz made his first public appearance under saddle. He showed himself to be 100% bombproof and displayed three top basic gaits.

His sire, Rohdiamant, was Champion Stallion at the 1992 Oldenburg approval and passed his performance test with a score of 150.01 in the partial index for rideability. In 1994 he was awarded the Main Premium in Oldenburg. Successful up to Grand Prix, Rohdiamant has sired over 30 licensed sons, including champion stallions and just as many State Premium mares.

Sao Paulo, the sire of Rosentanz' dam, produced a number of outstanding dressage horses and jumpers. At present, the most famous of these is the ten year old Satchmo, who won German team gold at the European Championships under the Olympic rider, Isabell Werth. Sabrina, Rosentanz' dam, passed her broodmare performance test with outstanding results.
